John Eyraud - - - Proprietor.A man must reap as he sows. If he sows
ill-health he will reap ill-health. If he
neglects his health the weeds of disease
will grow up and choke it.It is a daily and hourly marvel that men
will recklessly neglect their health, when
a moment's thought should tell them that
they are courting death. It lies in most
every man's power to live to a green old
age. If a man would only take the same
care of himself that he does of his horse, or
cow, or dog, he would enjoy good health.
When a man owns a hundred-dollar horse,
and it gets sick, he does not waste any time
about doctoring him up. When his garden
gets full of weeds, he doesn't delay about
rooting them out, for he knows they will
choke out his vegetables. When he is out
of sorts, sick, nervous, headache, has no
appetite and is restless and sleepless at
night, he pays little attention to it. The
result is consumption, nervous prostration
or some serious blood or skin disease. Dr.
Pierce's Golden Medical Discovery is the
best of all medicines for hard working men.
It gives edge to the appetite, facilitates the
flow of digestive juices, invigorates the
liver and purifies and enriches the blood.
It is the great blood-maker and flesh-
builder. It cures 98 per cent. of all cases
of lingering coughs, bronchial and throat
affections, weak lungs, bleeding from lungs
and kindred affections. Do not wait until
the lungs are too far wasted to admit of
being cured.As you know, five years ago the doctors had
given me up to die with consumption," writes
Mr. E. C. McKinney, of Deepwater, Fayette Co.,
Va. "I took treatment from Dr. R. V.
Pierce, and am entirely cured. I had been
steadily, as directed, his 'Golden Medical Dis-
covery'.Dr. Pierce's Pleasant Pellets cure con-
sumption. One little 'Pellet' is a dose.

SOME AWFUL DEATHS.

FEARFUL FORMS IN WHICH THE
GRIM DESTROYER CALLS.The Venom of a South Australian
Spider and the Frightful Agony It
Causes—A Grain That Makes Its
Victim a Raving Maniac.What is the most awful shape in
which death may come to mortal man?
Not by fire, nor by water, nor by gun-
shot. These are mere pleasures to
some of the deaths by which you may
die.The most agonizing of all is caused
by an insect half the size of a pea—
a small black spider. It lives in Peru
and South Australia, but a few speci-
mens have reached Europe and Amer-
ica in shiploads of timber. Not long
ago a dock laborer was unlucky
enough to come upon one in the Vic-
toria docks while unloading a bark.
The tiny death dealer dropped upon
the back of his hand and dug its fangs
into his flesh. The bite itself was noth-
ing, but as soon as the poison began to
work the man fainted with pain. Soon
afterward he came to and lived three
days before the end came.This spider's venom scorches up the
blood vessels and spreads through all
the tissues, causing the most fearful
agony a human being can have to bear.
The worst of it is that the victim lives
at least two days, enduring unthink-
able anguish the whole time. This spider
is luckily not common. It is known
as the "specky," and when a man who
knows what the bite means is bitten he
generally blows out his brains.Another fearful death is caused by
eating a grain called "bhat." This
sometimes gets mixed with rice, which
it resembles. The plant grows in the
east, and a few grains of it will drive
one into a state of violent mania. The
victim becomes drowsy at first and af-
terward hilarious, then he goes stark,
staring mad and tears himself literally
to pieces with his fingers, biting mouth-
fuls out of his limbs. It is bad enough
to see such a case, but as for experi-
encing it—This grain is only found in remote
parts of the east, but both white men
and natives are killed by it occasion-
ally in the east, for the plant grows in
with the rice crops and can scarcely be
told apart, but that the dried grain is
of a reddish color.Of course falling into a vat of boiling
metal, as unfortunate workmen some-
times do, sounds bad enough, but it is
mercifully quick. There is a South
American vine called the "knotter,"
which is far worse. It twines around
any living thing that comes within
reach, twisting its long tentacles about
a man as a devilish might. These
tentacles sear and burn into the flesh
like white hot wires, and the victim is
dragged into the heart of the foliage
and his juices slowly drained, as a
spider sucks the blood of a fly.All say that the pain is worse than
they could have believed it possible
for a man to feel. The "knotter" is
well known to scientists and is, in fact,
a sort of huge flytrap plant. Those
who have strong instincts of cruelty,
coupled with curiosity, sometimes force
a dog into the grip of the "knotter" to
watch the effects, which are too horri-
ble to describe in detail.Again, there is nothing very much
worse than hydrophobia, when genu-
ine. The patient often lives for days
in the acute stage and in his last hours
is simply tied up in knots and bent
backward and forward like a bow.
It is a very rare disease with human
beings, for most people bitten by rabid
dogs, a small number at most, escape
it. In extreme cases the patient actu-
ally snarls and bays like any hound,
and, next to experiencing it, the worst
thing is to watch a case. It is as dis-
tressing a spectacle as any man could
witness.There is a snake called the "lancer,"
which lives in South America, and is
very ready with its fangs. It is a small,
brown, insignificant beast, but its bite
induces a sort of imaginary swelling
all over the victim's body. He feelsas if every inch of him were being
strained to breaking point, and the
agony which results is too awful for
words. Generally, however, the ex-
cess of pain drives the bitten man mad
before very long, and in four hours he
dies—a senseless imbecile.But, all said and done, perhaps there
is no death more worse than by the
common disease of cancer, which
gnaws at the patient's vitals through
month after month of unceasing ag-
ony and slays its victim at last through
sheer exhaustion.—London Spectator.

His Little Contribution.

One of the many stories told of the
late Dr. Wallace, M. D., is to the effect
that when the editor of a local paper
in the north asked him "if he would
kindly furnish an article on 'a light
theological topic'" Wallace responded
with one bearing the title "The Rela-
tions Between the Presbyterian Church
and Modern Thought." When set up
the article made 40 columns, and it be-
came a puzzle to editor and printer
how to get rid of it. They began by
using it in pieces, and whenever the
printer said to the editor, "We've got
no leader," the reply was, "Eh, mon,
just sneak off about a column and a
quarter of Wallace." In this way the
contribution was used, first working
down from the beginning, then up-
ward from the end.—London Academy.

Composition on Breathing.

A boy, 14 years old, who was told to
write all he could about breathing in a
composition, handed in the following:"Breath is made of air. We breathe
with our lungs, our lights, our liver
and kidneys. If it wasn't for our breath
we would die when we slept. Our
breath keeps the life a-going through
the nose when we are asleep. Boys
that stay in a room all day should not
breathe. They should wait until they
get outdoors. Girls kill the breath with
corsets that squeezes the diaphragm.
Girls can't holler or run like boys be-
cause their diaphragm is squeezed too
much. If I was a girl I had rather be
a boy so I can run and holler and have
a great big diaphragm."—Detroit Free
Press.

WEDNESDAY, DECEMBER 20, 1899.

NEVADA IS HONORED.

Hon. Francis G. Newlands has been appointed to the Ways and Means Committee of the House. The committee to which our Congressman has been assigned is the most prominent and one of the most honorable of all committees, because it has charge of all legislation pertaining to the business of the nation that is assigned for investigation and report by committee. The assignment will give opportunity to Mr. Newlands in matters that will be to the interest of Nevada and the western coast, that he would not have in any other position to which he might have been assigned.

A report by the Ways and Means Committee is almost conclusive upon business before the House, which comes largely because of the known ability and integrity of its members. The appointment of Mr. Newlands to the Committee on Ways and Means is an acknowledgment by the House that he is a man of business integrity and intellectual ability, which latter is emphasized by the fact that the gentleman is from Nevada and is the only representative from the State.

Nevada was honored by Congress in the appointment of its Congressman to this committee. The appointment contains a recognition of respect for the State that it has not hitherto received from Congress in any form.

In the appointment there are no "rotten borough" methods in view, as it is a clean and clear result of recognized ability and statesmanship, which qualities are not a recommendation to a man among the small political bosses in Nevada.

When the people of the State conclude to occupy an honorable position in the Union and among men they will send in the future none other to Congress than high-minded and honorable men whose integrity is above suspicion. It has been the purpose and work of those who have directed the political business of the State to assail honorable men who aspired in an honorable way to political position, believing that by so doing they would continue to maintain the power they have abused to the dishonor and humiliation of the people.

EQUAL TAXATION.

Governor Priegree of Michigan has called a special meeting of the legislature of that State to consider the question of taxation upon railroad property within the State. The railroads pay a specific tax upon their earnings in Michigan which the Governor believes is unjust to other taxpayers who pay upon the cash value of their property.

There is a constitutional bar that will have to be removed before the desired end can be reached by the people. To remove the constitutional bar an amendment to the constitution is required for which cause the legislature has been called in special session to pass the needed amendment that it may be submitted to the people at the next election which is, business in the interest of the people that does no injustice to the owners of railroad property within the State.

Could it be so that the people of Nevada were in a position to require equal taxation the State would bound to a prosperous condition so speedily that the political mossbacks who are blocks in the way of good times would seek other slowgoing slams of inequity suitable to their instincts.

THE MONEY MARKET.

The money market has one side only, and that is its tight and panicky side. What can the matter be when money is so plentiful and prosperity is kicking up its heels in all quarters of the land? There is a digger in the woodpile as sure as gunner, or somebody is to blame.

The money market has been out of shape for some time. The proposition of Treasurer Gage to buy United States bonds some time ago gave away the money market secret, and the payment of twenty-five millions of dollars as interest on bonds that was not due and payable till January 1st next, was another indication that the money market was in trouble; but the government will make additional deposits with the national banks, which will make the market easy.

The national banks and the money sharps have things their own way at the expense of the people nowadays. Where are we going under McKinley's prosperity boom? The people will in due time learn their whereabouts in money and prosperity matters, that may surprise the oldest inhabitant among them.

McKINLEY ON TOP.

McKinley just heard from. The wool growers of the United States will in all probability receive for their next wool clip not less than 17 cents and it may be 20 cents per pound.

It is refreshing to learn that President McKinley has so arranged the markets and wool production that our wool growers will receive for their next crop such prices.

There is no paper in the union that will give the President more credit for good offices that will favor our wool producers than the JOURNAL—provided always that it is true that the President has been the means of causing high prices.

It may be that the Boer war and other causes have aided the President in his good offices and if so McKinley should not be held up to a doubting people clothed in sheep's clothing.

Gone to His Reward.

DIED—At Hillsboro, Iowa, December 16, 1899, Elijah Alexander Thomas, aged 85 years.

Deceased was the father of Mrs. William Webster of Reno, Mrs. John Pearson of Virginia City, Nev., and Mrs. M. L. Yager of Los Angeles, Cal. Mr. Thomas was a native of Westmoreland county, Pennsylvania. He removed to the then Territory of Iowa with his family in 1842, where he continued to reside until he died. He leaves a widow, two sons and six daughters to mourn his taking off. Mr. Thomas was a man who possessed a positive nature and deep religious convictions. He became a member of the M. E. Church in his boyhood and continued to be a consistent and active member of that church during his long life, and was a man who sought the right in all matters.

Mr. Thomas and family were among the first Methodists who settled in southeastern Iowa, and his home was used for a number of years for circuit preaching purposes. During the early years of the Territory and State his home was the home of the itinerant, and the latch-string was always where it could be seen and used by those who were in need of food and shelter.

The How of It.

In response to several queries as to the particulars of the disputed right of way on the Central Pacific tracks Sunday, the JOURNAL will state that two freight trains tried to pass on the single track near the Reduction works. Charles Magoon, an eye witness, states that the engineers had a lively argument as to which had the right of way.

They came together on the straight line, so that there was no danger of collision, but if the westbound had been a few minutes later there might have been a big pile-up in the canyon. It seems that the eastbound engineer had the right of way.

T. E. DE LA MATYR

AS A PROFESSIONAL

A Local Thespian Makes His Debut Before the Footlights.

Every seat in the opera house was taken last evening at the presentation of "Wife for Wife" by the Jessie Shirley Company.

The excellence of the rendition and the display of enthusiasm on the part of the audience evidences that the troupe will play to big business all week.

"Wife for Wife" is a thrilling melodrama. The scene is cast in the southland. It is a heartfelt play, reeking with noble and ignoble passions. But, as is the nature of these dramas, the good and true and pure finally triumph after having passed through many trials.

The lines of the play were not so much responsible for the interest of the production as was the genius of the players. It was admirably staged and the several characters were portrayed in a manner true to nature.

The orchestra did its part to contribute to the pleasure of the evening. Even the stern necessity to "see a man" caused few to desert their seats between the acts.

Thorman E. DeLaMatyr, in the character of Dr. Achille Vernon, shone as a bright particular star. It was his first appearance before the footlights in Reno as a "profess" and the gallery gods cheered him to the echo. His support was excellent.

A Church Rebuilt.

My son has been troubled for years with chronic diarrhoea. Sometime ago I persuaded him to take some of Chamberlain's Colic, Cholera and Diarrhoea Remedy. After using two bottles of the 25 cent size he was cured. I give this testimonial, hoping some one similarly afflicted may read it and be benefited.—THOMAS C. BOWER, Glenocoe, O. For sale by Wm. Pinniger, Druggist.

As a cure for rheumatism Chamberlain's Pain Balm is gaining a wide reputation. D. B. Johnston of Richmond, Ind., has been troubled with that ailment since 1862. In speaking of it he says: "I never found anything that would relieve me until I used Chamberlain's Pain Balm. It acts like magic with me. My foot was swollen and paining very much, but one good application of Pain Balm relieved me. For Sale by Wm. Pinniger, Druggist.

A Thousand Tongues.

Could not express the rapture of Annie E. All other remedies and doctors could give her no help but she says of this Royal Cure—"It soon removed pain in my chest and I can now sleep soundly, something I can scarcely remember doing before. PROSPECTORS ARE TACKLING NOTICES

Some of the Many Claims Being Located Around Reno This Winter.

The Calamut claim was located in Peavine by A. H. Bemis, J. D. O'Sullivan, R. S. Osburn and M. Scheeline. It is a copper proposition.

These same men have staked out the Mammoth claim, near by, on a ledge carrying gold, silver, copper and lead. They have also taken up claims known as the Sullivan, Sullivan Extension, Hecla, Anaconda, Copper King and Copper Queen.

Guy M. Timblin has put a notice on 1600 of the Cleopatra lode, naming his claim the Pacific.

Walter Timblin has found a "Klondike" on the Cleopatra lode.

Alex Pollock has found a ledge in Frank Free canyon, White Horse district. It is a copper prospect, and is to be known as the Gray Rock.

F. A. Norton has located the Crescent claim on the Pioneer lode.

L. B. Norton has located the Excelsior claim in New El Dorado district. Frank H. Norcross has located Antonio, on the Cleopatra.

Among the claims recently located on the kaolin deposit near Verdi are the following: Illinois, by J. R. Redman; Carson, by W. D. McCuen; Vermont, by J. M. Howe; Nevada State Journal, by Wm. Webster; Crown Point, by John Jones; Nevada, by E. E. Copeland.

The Norcross claim has been located in Golden Pines canyon by J. H. Brown, F. H. Norcross, T. P. Bradshaw and Andrew Eife.

Near by is the Bradshaw claim. The names on the notice are the same as on the Norcross, with the addition of A. G. Fletcher.

The locators of the Norcross have taken up the Little Gem, in the immediate vicinity.

J. P. Branley and J. S. Miller have posted notices on the Galesburg and North Star, at the south end of Cleopatra canyon.

A. Pollock is locator of Last Chance claim in Frank Free canyon.

Probate, Bonanza, Lone Star, Last Chance, Pitt's Canon, Sunshine, Farquhar, Pine Butte, Rising Sun, Olean, Gray Eagle and Apex are claims located by stockholders in the Nevada Mining Company.

A. Pollock has located the Alexander claim in White Horse district.

Most Original Party.

For originality, hospitality and the desire to make others happy, the Reno Wheelmen's Club certainly has that distinction.

Their annual ball to be given January 1st promises to be better, if possible, than any previous social affair given by the club. The committee having charge of the arrangements are working hard decorating the hall, and the ladies and gentlemen who are to take part in the fancy bicycle drill are rehearsing daily.

The historical and colonial costumes to be worn will be new, novel and interesting as no masks will be worn to mar the effects of an original character.

A large crowd will be in attendance, and everyone should have an enjoyable time. Tickets including gentleman and lady are only \$1.00 and single tickets 50 cents.

Williams Demurs.

There was filed in the County Clerk's office yesterday a demurrer in the ten thousand dollar damage case of Mills vs. Williams. Defendant finds several things in the complaint to object to.

He demurs because the complaint speaks of a conspiracy and makes him his sole defendant. He thinks that the complaint is hazy in its meaning. He complains because it is not more specific in stating its cause for action.

The other day Mr. Williams, by his attorneys, filed a statement or affidavit to the effect that the plaintiff in the case stated before witnesses that he was not a resident of Reno, but was here temporarily for business purposes. What bearing this affidavit has upon the case is left to the discerning reader.

You'd Better Go.

The young men of this city who sit down when they walk are preparing to give a dance that will make the laurels tremble on the brows of Monumental Hose company, No. 6.

The old year will be given a princely send-off and the new year will be given a royal welcome at the pavilion when this twenty lap to the mile tandem event is pulled off. Particulars in the advertising columns.

Over the Hill.

"Jimmie" F. Haley took the train last night for San Francisco to spend the holidays with his folks. He expects to return to Reno in a couple of weeks. Jimmie says he expects it will seem as if he was still in the suburbs of Reno down there since there is telephone connection between the two places.

FACTS AND FIGURES

ABOUT TAXES

What Monies Have Been Apportioned to the Various Funds.

After the close of the tax roll for the first installment there was delinquent taxes on the valuation of \$18,300. The total amount including special taxes, is \$854.36. The valuation carried over to the second installment is as follows, to-wit:

Valuation	\$1,722,485 00
State fund	17,224 85
County funds:	
General	\$3,444 97
Salary	1,577 99
Indigent	1,722 48
Road	1,722 48
General school	4,650 71
Agricultural Ex. Station	4,806 21
Town of Reno	3,597 19
Reno School Redemption	686 62
University Redemption	581 09
Wadsworth Fire Bonds	491 63

This does not include \$321 for poll taxes which, if paid adds \$160.50 to State fund and \$160.50 to county road fund.

The above figures do not embrace any collections that may be received on delinquents during the ensuing 6 months.

The first payment on the Agricultural Experiment Station, amounting to \$7,600, was paid yesterday, leaving a balance in the fund of \$582.97, which, added to the collection for the 2nd installment, will be more than sufficient to pay the remainder, to-wit: \$4,500. Thus the \$12,000, assumed by Washoe county for this addition to our State University, will have been wiped out, and the State of Nevada holds the deeds to the property.

Plans Adopted.

The town board met in adjourned session last evening to consider applications for a fire alarm system. A. J. Coffee, Pacific Coast agent for the Gamewell company, and H. Askins, representing a telephone company, were present and addressed the board. The only specifications presented were by Mr. Coffee.

A long debate was entered into by the two gentlemen. Each presented sledge hammer arguments in favor of his system, but as Mr. Askins had not presented specifications to the board he lost his fight and the plans filed were adopted.

The board then ordered an advertisement inserted in the JOURNAL calling for bids upon these specifications. They will be opened the second meeting in January.

I wish to call particular attention to a working shirt I am handling. It is undoubtedly the best working shirt that was ever sold on the Coast for the money. Call and examine the same.

A SURE CURE FOR COUGH.

Twenty-five Years' Constant Use without a Failure.

The first indication of croup is hoarseness, and in a child subject to that disease it may be taken as a sure sign of the approach of an attack. Following this hoarseness is a peculiar rough cough. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the croupy cough appears, it will prevent attack. It is used in many thousands of homes in this broad land and never disappoints the anxious mothers. We have yet to learn of a single instance in which it has not proved effectual. No other preparation can show such a record—twenty-five years' constant use without a failure. For sale by Wm. Pinniger, Druggist.

Robbed the Grave.

A startling incident, of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in the most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters' and to my great joy and surprise, the first bottle made a decided improvement, I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cts per bottle at S. J. Hodgkinson's Drug Store.

County to State.

The Auditors semi-annual report to the Controller of State, shows that the county owes the State \$33,935.51 from all sources since the 12th of last June. Treasurer Boyd will settle for that amount.
